CLEANSING STUDY

Performance Evaluation: Long-lasting Lipstick

The products of **Bench 3**, **Bench 4** and **CLN** have a **similar performance**;

Bench 2 has the worst performance;

Bench 1 is in an intermediate performance level.

METHOD:

- Put the product to remove on the forearm of the volunteer;
- Soak a cotton disc with 2 mL of the solution of each product;
- Placing the cotton disc on the top of the makeup line to remove;
- Sweep it slightly on the makeup line to remove.

Performance Evaluation: Mascara

The products of **Bench 4** and **CLN** have a **similar performance, without stain or leave residue of mascara on the skin;**

The products of **Bench 1** and **Bench 2** only distribute the dirt but not clean the skin and leave residue of mascara;

The **Bench 3** has an intermediate performance for mascara.
has an intermediate performance for mascara.

METHOD:

- Put the mascara to remove on the forearm of the volunteer;
- Soak a cotton disc with 3 mL of the solution of each product;
- Placing the cotton disc on the mascara for 3 seconds;
- Sweep it slightly in one direction.
