

Mirasoft® SL L60

Multi-functional biosurfactant combining excellent co-surfactant properties with best-in-class biological activity

INCI: Glycolipids

Low color, auto-preserve, lactonic-rich, high active sophorolipid produced by fermentation. Delivers excellent cleansing, solubilization and emulsification properties, but also skin & scalp health benefits. Helps improve skin & scalp conditions by noticeably regulating sebum production, inhibiting microorganisms involved in acne, irritation and dandruff*. Can also be used for malodor control*.

- Highest lactonic % among market products (> 85%)
- Gentle, non-irritating natural surfactant
- Multifunctional: co-surfactant & active ingredient
- Typical use level: 1 - 5%. Application-dependent

Typical applications: facial cleanser, body wash, hand soap, shampoo, micellar water, makeup remover, scalp treatment, deodorant

- 100% natural (In=1.0)
- Green fermentation process
- Low Net CO₂ footprint
- Palm-Free
